Removal of PHO's in Coffee Kits

You may be aware that in 2015 the U.S. Food and Drug Administration (FDA) made a final determination that by June 18, 2018, manufacture's products could no longer contain partially hydrogenated oils (PHOs).

Effective May 26, 2017, WNA-Bremen, Georgia will no longer offer dry dairy coffee creamers with PHOs contained in our coffee kits. In addition, our current dry creamer supplier will only offer non-PHO creamer. This early switch should allow our customers sufficient time to exhaust current supplies of our dry creamer that contains PHOs, our item codes will not change.

Information regarding the FDA's decision can be found on the following link:

<https://www.fda.gov/Food/IngredientsPackagingLabeling/FoodAdditivesIngredients/ucm449162.htm>

If you need samples of the new PHO free creamer, please contact Gayla.Locklear@wna.biz 678-573-7239.

Sincerely,
WNA
