FINESSE™

DINNERWARE

Finesse™ dinnerware is made from recyclable Polypropylene (PP) ♻️. With a lower carbon footprint, PP is recognized as a greener disposable solution for eco-conscious customers.

Additionally, Finesse™ plates and bowls contain a natural mineral additive for additional eco-friendly benefits. This line addresses the need for alternative plastic material solutions in communities that have banned Polystyrene (PS) ♻️.

Additional Features and Benefits

- Finesse™ dinnerware is microwavable and can be used under heat lamps for food staging and warming.
- Durable heavyweight construction and deep profile is ideal for heavy or saucy foods.
- Addresses a variety of food applications; from hot soups and warm entrees to cold desserts and meals.
- Visually appealing design and matte finish complements food presentation.
- Also available in black with coordinating clear PET dome lids for take-out foods or meal transport.
