

With the NEW Reflections™ Petites™, WNA offers another way to capitalize on the overwhelming popularity of Reflections™, the patented single-use silverware.*

Reflections™ Petites™ tasting fork and spoon have the same shine and silver-sparkle of stainless steel cutlery, with the added convenience of a disposable.

These 4.2" pieces coordinate perfectly with Petites™ servingware, the ideal solution for presenting 'small plates', a leading trend in the foodservice industry.

The tasting fork is well-suited for use as a utensil for gourmet tid-bits, a skewer for finger foods, or a seafood pick. This is an elegant, upscale alternative to everyday picks and skewers.

The tasting spoons are sized for smaller portions of mousse, soup, fruit salad, and more! Also, they are useful for condiments, sauces, chutneys, salsas, and dips.

For a truly, coordinated table presentation, mix and match Reflections™ Petites™ with other Reflections™ products, Petites™ mini servingware and the wide range of WNA dinnerware options, including Masterpiece™, Milän™, Classicware®, and Designerware™.
