## Why King Packaging?

King Packaging, a long-time leader in the production of disposable meal kits for healthcare, hospitality and institutional products, is now part of WNA - one of the largest manufacturers of plastic products in the United States.

In 1964, King Packaging worked with Walter Reed Army Medical Center and developed the industry-standard, Diet Kit® brand of color-coded dietary kits. Today, King Packaging is the largest supplier of dietary kits to the healthcare market - a market that demands high quality, absolutely sanitary conditions, and complete quality control.
