

With the new Reflections™ Grand™ cutlery, WNA offers another way to capitalize on the overwhelming popularity of Reflections™ the patented single-use silverware.*

Reflections™ Grand™ cutlery has the same shine and silver-sparkle as stainless steel, with the added convenience of a disposable. Reflections™ is the only solution addressing both the need for a formal presentation and the high costs associated with renting or owning (cleaning, transporting, and replacing) permanent flatware.

For a coordinated table presentation, Reflections™ products can be combined with the wide range of WNA dinnerware including Masterpiece™, Milän™, Classicware® and Designerware™.

- ♦ Reflections™ Grand™ fork and knife are larger and heavier than the standard Reflections™ cutlery for even greater durability and strength.
- ♦ These heavyweight pieces are ideal for certain food presentations that require a higher level of performance.

Product Specifications

Disposable Plastic...Looks Like Silver!
