- Single and Double Bases also Available

Cutlerease® Dispensing System

Cutlery at Your Fingertips

Clean, Hygienic Cutlery

Cutlerease® innovative dispensing system promotes improved hygiene and reduces the spread of germs by releasing one piece of cutlery at a time.

Operators

- Tape tabs offer sanitary handling of cutlery refill packs and easy pick up and loading of cutlery into cartridge.
- Cutlerease® system has no trays or levers; helps prevent accumulation and transfer of germs and bacteria.
- One piece at a time dispensing supports a take-only-what-you-need mindset and reduces waste.

Consumers

- Cutlerease® system automatically dispenses one piece of cutlery at a time.
- Handle-first delivery maintains cutlery's sanitary eating area.
- Take only cutlery that is needed.

Save Space and Resources

- Compact footprint; nearly 3:1 counter-front space savings over the popular brand.
- Each Cutlerease® cartridge holds 120 pieces of cutlery making a three cartridge set up able to hold 360 pieces of total cutlery.
- Two new bases options now available, a single base that can hold one cartridge and a double base that can hold any combination of two cartridges.

Easy to Operate and Convenient

Customize your cutlery options. Cutlerease® system is so versatile, you can mix and match cutlery to meet your business needs. Want more forks than spoons? No problem.

Customize me!

Cutlerease® base universal design gives operators flexibility to customize cutlery types and change out cartridges easily.

Red indicator tab indicates cutlery is low and time to reload.

Easy touch release trigger readies cutlery for user to grab and use.

Enhance your brand by adding custom adhesives to your dispensers! Contact your WNA sales manager to find out more
